WinCC OA:

CP informed that preliminary tests of WinCC OA 3.15 release candidate of 05/01/2017 were performed and that some previously reported issues were solved:
- The project upgrade procedure gets stuck if the CTRL syntax check option is selected. Relates to: ENS-18335 and ETM-1382. **Fixed.**
- Adding/Deleting panels in runtime doesn't work due to shapeExists function behaviour being different in 3.15. Relates to: ETM-1386. **Fixed.**

CP reported that keyboard shortcuts are still not working properly. Relates to: ENS-18334 and ETM-1324.

BC informed that the first official release of WinCC OA 3.15 is expected next week.
